

PRINTABLE DESK PET

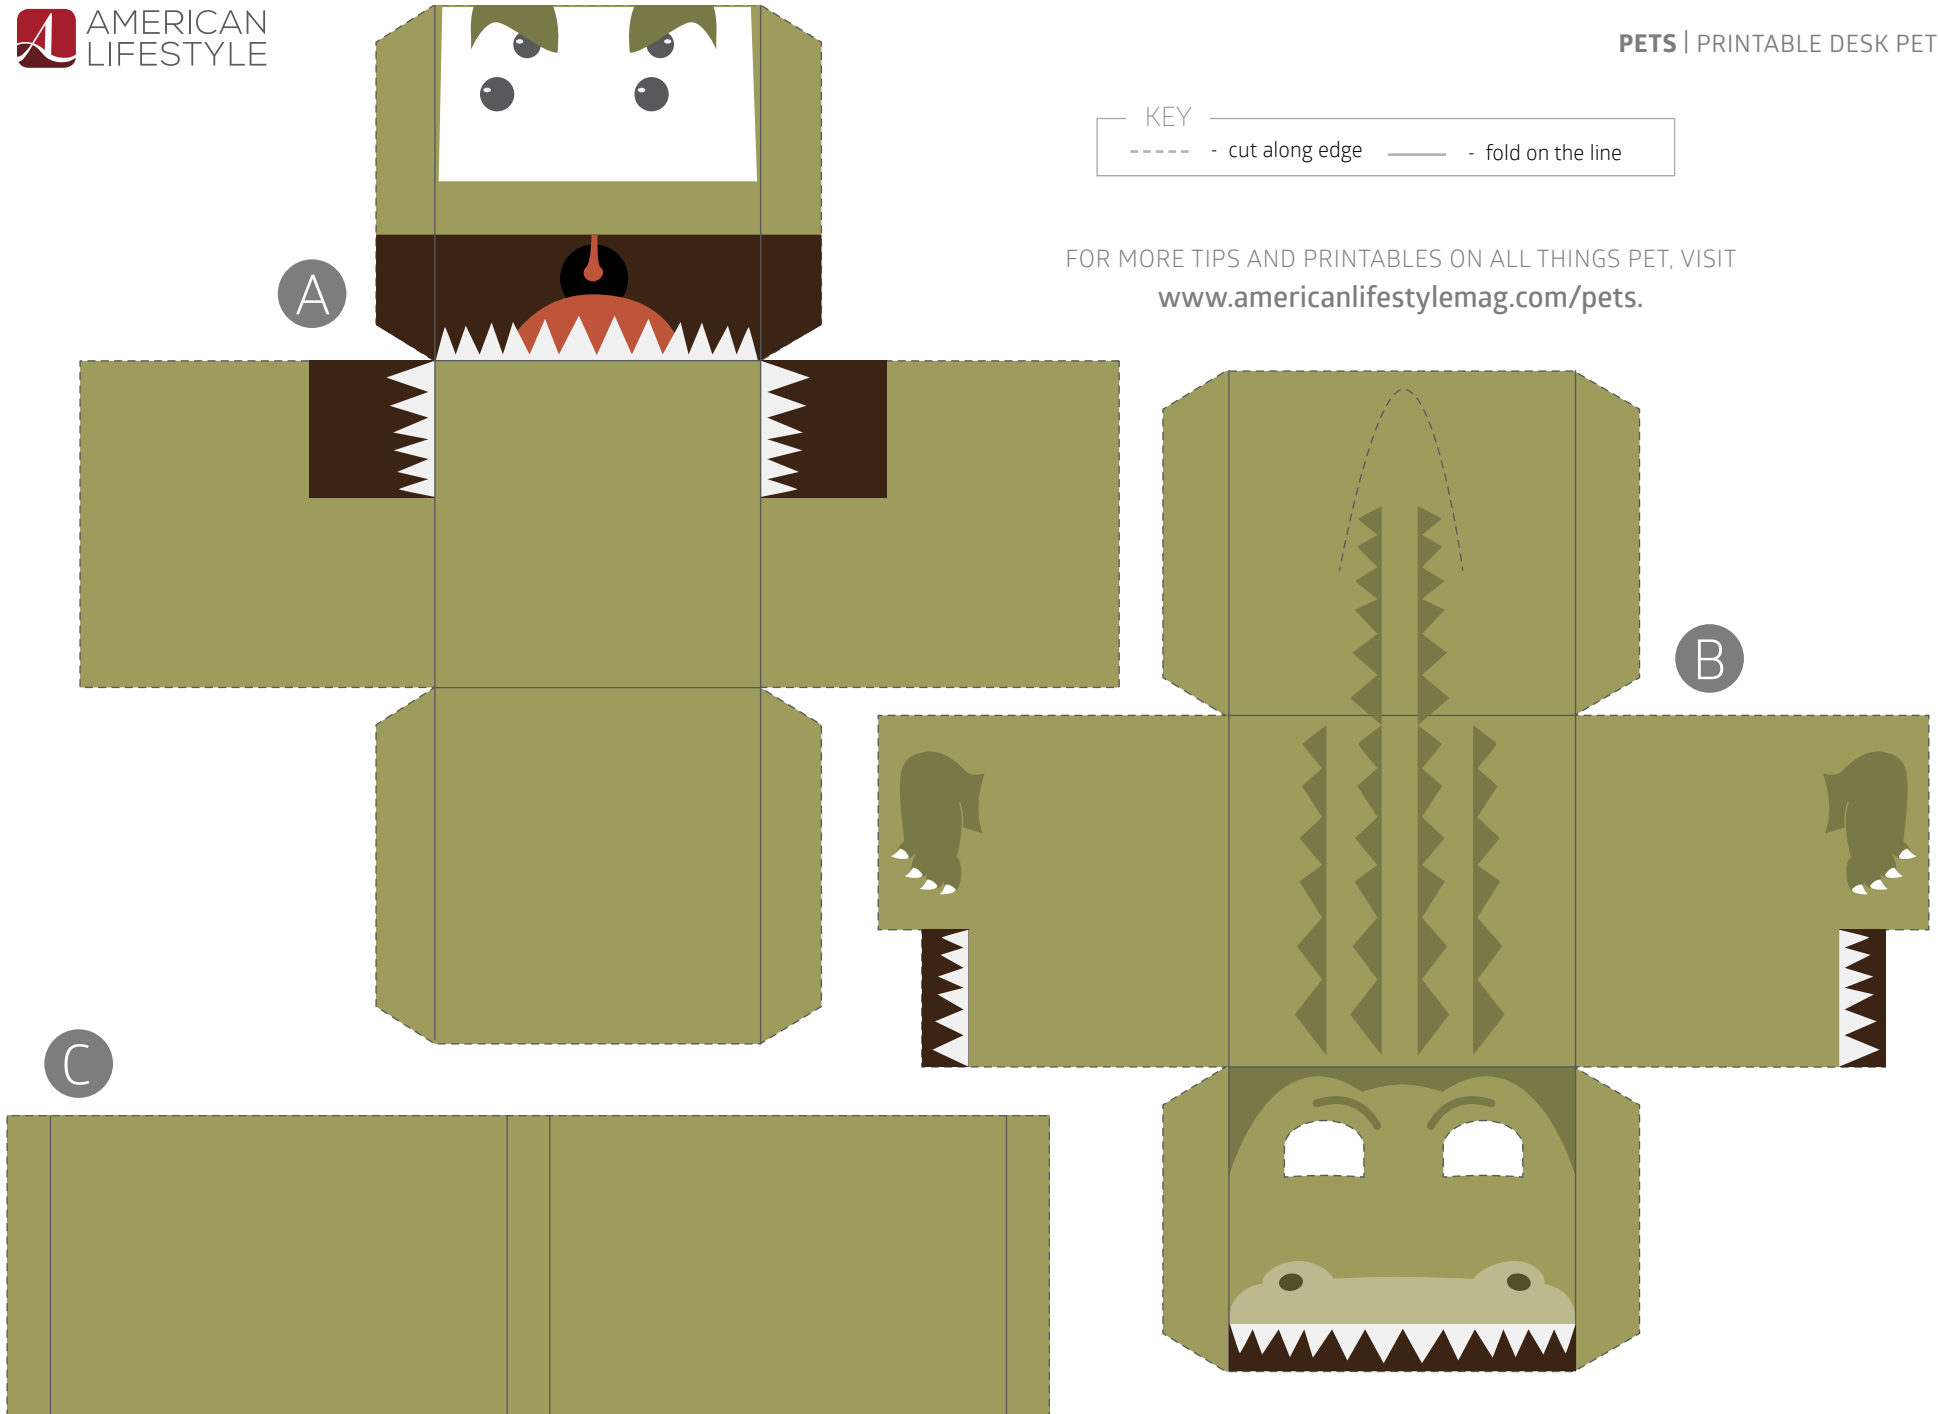

So maybe having a real, living pet is too much of a responsibility for you. Or maybe you need something at your desk at work to distract you from your job for a minute. Either way, there's a wide appeal for a cute, immobile, quiet pet that you can pay attention to only on your own terms. All you have to do is print it out, and fold and cut along the lines. In no time, you'll have a free paper pet to enjoy—and you'll never have to clean up after it!

INSTRUCTIONS:

1. Cut out each shape following the dotted cut lines, and then fold along the solid lines. You will need an X-ACTO® knife to cut out the eyes and other similar shapes.
2. Use glue on each tab on shapes (A) and (B) to create boxes.
3. Once the glue is dry, place the folded insert piece (C) into the bottom box (A), and then place the other assembled box (B) on top.
4. Press down on the box to change your desk pet's mood!

KEY
- - - - - cut along edge ———— - fold on the line
